

**DENBUR**

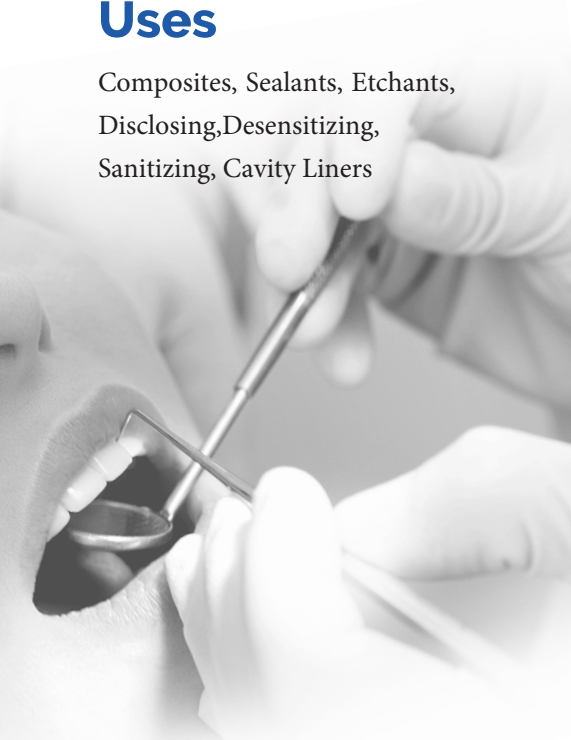

**C-Flow<sup>®</sup>**

## Features

All plastic disposable bendable dispensing and applicator tip with Universal Luer Lock-style to fit Luer syringes. Both the neck and the tip-end can be bent up to 90 degrees without pinching. Patient friendly tips reduce needle phobia. The tips have an exclusive axial opening within a side wall of the structural body. The opening provides a precise, accurate, and controlled application without interfering with the flow of the composition.

## Uses

Composites, Sealants, Etchants, Disclosing, Desensitizing, Sanitizing, Cavity Liners

## Fiber Coated Bendable Syringe Tip

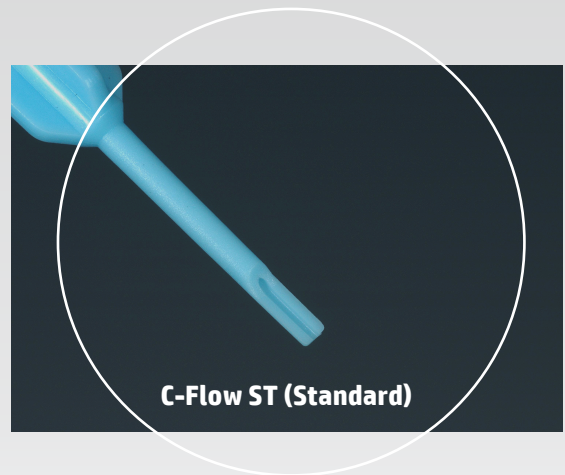

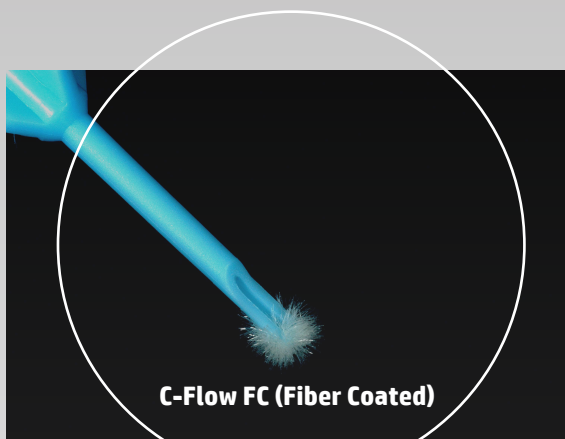

Universal Luer  
Lock Fit

Fiber Coated  
Tip with Visible  
Dispensing
