

Sticky-Brush™

Single bending sticky-tip applicator

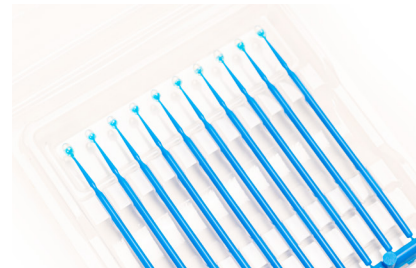

Pick

Stick

Place

Features

Sticky-Brush is a disposable pressure sensitive adhesive tip applicator. It uses a unique adhesive formula that can securely pick and place restorations without leaving any residue. Sticky-Brush can be used multiple times on the same patient and remains sticky even in contact with saliva or liquids. Extra long handle and indented neck enable greater controlled application.

For

Veneers, crowns, restorations, cementation, inlay and onlay, band placement and clasps.
